

G-20

table top horizontal batch-freezer
for gelato & ice cream production with cold process
air cooled

Small and productive

An advanced batch freezer for restaurants and coffee shops,
used for the production of high quality gelato and ice cream.
The machine is self explanatory, you don't need any special skills to make a batch in minutes.
The G-20 can fit anywhere, and is easy to transport thanks to its compact size.

Technical features

- Charging hopper allows for a fast charge of the mix, flavors and other ingredients
- Front door made in Makrolon® (special thermal insulating material)
- Two blade stainless steel mixer with interchangeable scrapers
- Quick and easy gelato extraction
- Acoustic signal tells you when gelato is ready
- Automatic temperature control thanks to advanced thermoregulators with "sensible touch" displays

Advantages and strengths

- Gelato or ice cream batches produced in a very short time
- Easy to use, the machine is exceptionally functional
- Electronic control of working cycle through temperatures
- Extremely easy to handle and clean
