

SM160 Product Features and Specs

Description

The Cookshack SmartSmoker® SM160 oven is designed for operations that need a capacity of up to 120 lbs. of heavy cuts per load. Cookshack's most popular commercial electric smoker will operate 24/7 and is ideal for operations which need to produce a moderate amount of smoked foods and/or barbecue.

How It Works

- Heat is supplied by an electronically-controlled heating element
- Smoke is created as wood smolders in the wood box
- The heating element works only when the door is completely closed
- Produce hot foods or cold smoked foods with optional cold smoke kit
- Safe, contained wood box slides out
- Drippings exit the bottom of the smoker into a removable drip pan for a clean, safe operation

IQ5 Controller

- Digital controller
- Includes 8 programmable, customizable cooking presets
- Alarm cycle
- LCD display
- USB port for downloading up to 512 hours of cook time onto a FAT formatted USB flash drive
- Features 3-stage, 2-stage and probe mode cooking options
- Optional meat probe allows the user to set the smoker to a desired internal meat temperature and then automatically cycles into hold when the temperature is met

Efficient

- Tough double-walled stainless steel construction surrounds 850°F Spin-Glas® insulation
- Retains heat and remains cool to the touch on the outside

Front View

SM160 Venting Requirements

A small amount of smoke will escape from the top of the oven and from around the door. Three methods of venting can be used, consult your local authorities to determine which method meets your local codes:

- The oven can be placed under a Class 2 hood.
- The oven can be direct vented by suspending a 4" diameter pipe at least 3" above the vent hole on top of the smoker that runs outdoors or to an existing hood.
- The unit can also be vented by an optional Smokehood from Cookshack. The stainless steel Smokehood incorporates a removable grease filter and an exhaust fan. It mounts directly on top of the smoker and removes the smoke vented during normal cooking.

SM160 Specifications

Outside Dimensions	20.5"W x 52"H x 25"D
Food Capacity	11.25 sq. ft. (1620 sq. in.) OR 120 lbs. pork butts, 100 lbs. brisket, 50 lbs. ribs, or 20 whole chickens per load
Cooking Area	1620 sq. in.
Shelves	(5) 18 x 18" (45.7 x 45.7cm) grills, 5" (12.7cm) apart
Appx Fuel Consumption	2 oz. (appx. 1 chunk) of wood will smoke up to 60 lbs. product
Appx Cost of Operation	\$0.97 per 12 hour cycle at average setting (includes wood and electric)
Temperature Range	130°F to 275°F
Electrical	1500 watt heating element, 15 amps, 120v single phase; 240v export models available, power cord approximate length is 50" (± 6")
Shipping Weight	245 lbs.
